### **EDUCATION**

# University of Central Florida, Orlando Fl. GPA: 3.23

• Bachelor of Science in Computer Science

May 2022 - Aug 2025

### **TECHNICAL SKILLS**

Full stack web development - Experience in MERN and LAMP stacks implementing user-friendly and efficient designs **Mobile app development** - Experience using Android Studio and React Native to create responsive and effective apps Machine learning - Experience implementing generative text and image AI models within web environments **Programming Languages & Software:** 

- Java
- $\mathbf{C}$
- C#
- C++

- Python
- Android Studio
- Kotlin
- Word, Powerpoint, Excel

#### **Web Development:**

- HTML, CSS
- Javascript, Typescript
- React

- Tailwinds CSS
- **Bootstrap**

- Git, Github
- React Native

# Flask SQL, SQLite

Node.js

# PROJECT EXPERIENCE

Senior Design Project - "ConversAltionELLE" - Unity development and web design

Aug 2024- May 2025

- The goal of this project is to intelligently assist students learning Spanish through the use of our custom AI language model inside of a 2D Unity/WebGL environment.
- Group consists of 6 team members; my role is frontend web design and Q/A testing.
- Implemented inside a large codebase of existing "ELLE" language learning games.
- Integrated a robust web stack (React, TypeScript, Node.js, Flask) into the "ELLE" series for seamless gameplay experience.

**Sudoku App** (Solo Project) - Web development and complex algorithms

May 2024 - Present

- Implemented Donald Knuth's "Algorithm X" to efficiently generate and solve Sudoku boards.
- Uses the React web framework to create an interactive and responsive design.
